** ALGERIA. 17600, June 4 at 1840, checking Ifrikya FM for a floating English segment but just music. Inadequate signal from Béchar into UTwente, and Maryland SDR, so I pick the only Kiwi close to the boresight, TWR Kenya: shows 17599.902, but I think it`s miscalibrated, since UTwente puts it on 17599.997 at the least; TWR also gets a squeal inaudible elsewhere so suspect receiver or Nairobi-area problem, not transmitter (Glenn Hauser, OK, WOR)

** AUSTRIA. 9510, June 2 at 0254, S Asian music and 0257 talk in presumed Punjabi ending with ``Amen``, 0258 PO Box in Lahore, Pakistan, AWR ID and off 0259.5*, EiBi shows Moosbrunn site at 0200 Urdu, 0230 Punjabi. Quite a good signal wasted over here, S9+20 and not directly off the back, per HFCC only 100 kW at 91 degrees (Glenn Hauser, OK, WOR)

** BENIN. 1566, June 1 at 0323, monitoring Canary SDR for opening of TWR, whose carrier I DXed direct a couple nights ago. It`s so weak I can`t see an exact cut on, but it is there by 0330, and still no modulation audible by 0345. The Fuerteventura SDR gets that much, not the other one in Tenerife (Glenn Hauser, OK, WOR)

** CHAD [non]. 15505, June 3 at 0618, S7/S8 in very heavily accented French. It`s R. Ndarason Internationale via Woofferton UKQOGBANI this hour, per EiBi and the following hour via Ascension. WRTH 2024 page 578 shows languages used are Kanuri/Kanembu/French without any specific times. Editors who insist on deleting any of my [non] headers, also delete the context and very raison-d`être for such stations (Glenn Hauser, OK, WOR)

** CHINA [non]. 9580, June 2 at 0253, tune of ``Frère Jacques`` but not in French, presumably Mandarin like this CRI hour via CUBA, S9+20/30 but very undermodulated (Glenn Hauser, OK, WOR)

** COLOMBIA [and non]. 28470 USB, June 5 at 2210, Hawaiian station speaking Spanish, did not get call, but contacting HJ3ESF who went on to contact several Mainland US stations such as N9UU. Said he was on an island near or in Colombia, but did not catch that either. QRZ.com rather only shows mailing address: ``HJ3ESF Colombia flag Colombia, Munir Saab, 20976 Sheridan St, Fortlauderdale, FL 33332, USA`` (Glenn Hauser, OK, WOR)

** CUBA [and non]. 9700, May 31 at 0409, RHC Spanish with news, S9+30/40 direct, no sign of QRM from Algeria, despite scheduling, and that not on 9500 either. Also as of June 1, Romania in Spanish at 0200-0300 evacuates from 9700 to 9740. Recheck at 0426, RHC is off (Glenn Hauser, OK, WOR) see also ROMANIA

** CUBA [and non]. 9700, June 2 at 0251, RHC Spanish is on tonight, about the Mexelex today, VG direct, nothing on 11760 and RRI Spanish safely away on 9740 also with VG signal (Glenn Hauser, OK, WOR)

** EAST TURKISTAN [and non]. 15245, June 1 at 1536, algo weak direct

with het from even weaker 15245.25 approx, latter surely VOK as logged yesterday; the former listed as CRI English this hour only via Kashgar, land of imperialist ChiCom genocide against Uyghurs and other Moslems. Commies vs Commies! (Glenn Hauser, OK, WOR)

** GERMANY. 6150, June 1 at 1453 into UTwente, pop music S7/S9, as I check for anything besides WOR from missing SW Radio 6160. Nothing above that on band, but this below which is Europa24, Datteln. 1544 rock/songs in English with ID between each in German, ``Europa vierundzwanzig`` also at 1547, 1555, 1558. SHN`s latest and last list of Eu private lowpower SW stations shows it closing at 1500. WRTH 2024 page 548 shows 250 watts at 09-17. Map shows Datteln in NW Germany near Netherlands border like some of the others (Glenn Hauser, OK, WOR)

** GERMANY. 9670, June 2 at 0252, S9+10/20 of pop music, much better signal than usual from Channel 292, reported to be testing new direxional antenna thisaway (Glenn Hauser, OK, WOR)

** KOREA NORTH. 15245.244, May 31 at 1823, song at S4/S7 and way off frequency first estimated at 15234.25; yet one of better sigs on almost deadband, JBA carriers, except for USA stations. I bet it`s P`yongyang. At 1832 when measured I tune it in at UTwente where it`s VG S9/+15, and soon announcements in English as ``sweet`` music continues: how could that be coming from a hellhole rather than a paradise on earth? 1853 with typical KN accent, recites extensive times and frequencies of Voice of Korear English broadcasts, not clear if complete, and off (Glenn Hauser, OK, WOR)

** NEW ZEALAND [and non]. 28228 CW, June 4 at 2203, only 10m beacon is JBA, usually fading when it comes to ID after EEEEEEE DE ---, but finally conclude it`s ZL3TEN, as recently also logged, as per WGB list:

``28228 ZL3TEN - Rolleston, Christchurch NZL RE66ej - #0 (09 Jan 2024) Note: ID + grid + eee``
-- and not to be confused partially with another TEN right next to him:
``28228.3 TG9TEN/B - Guatemala City GTM EK44mv - #0 (16 Mar 2024) Note: ID + grid - HTX 100 1w into A99 vertical`` Only other sig on 10m was someone calling CQ in English on 28460 USB, but not back in ~4 minutes (Glenn Hauser, OK, WOR)

** NORTH AMERICA. 6880 USB, June 2 at 0147 pirate music, S9 but so is the high storm noise level. Many logs here of Mix Radio International, including Radio 48, starting at 2257 June 1: https://www.hfunderground.com/board/index.php/topic,130077.0.html (Glenn Hauser, OK, WOR) see also UNID 6925-

** OKLAHOMA. Correxion: I recently referred to 1170 Tulsa as KFAQ, in connexion with IBOQRM to 1160 KSL. Shows you how much I listen to/care about that station, format now silly Fox sports. FCC info on call sign history with Begin Date: KTSB 09/06/2021, KFAQ 05/10/2002, originally

KVOO from 1926. I think Voice of Oklahoma was much neater, stupid of them to ditch it. KVOO still not assigned to any AM station (Glenn Hauser, Enid, WOR)

** ROMANIA. 9740, June 1 at 0224, RRI in Spanish, VG S9+20/40 into Maryland SDR, Castilian accent, with folk music, new frequency ex-9700 due to QubaRM; ironically, RHC is absent tonight, but no doubt will be back (Glenn Hauser, OK, WOR)

** ROMANIA. 13650, June 4 at 2053, English about film awards, S9/+20, soon RRI sounder and s/off this 2030 to WEu/ENAm, next broadcast at 2200 (Glenn Hauser, OK, WOR)

** SAUDI ARABIA. 11935, June 4 at 1650, no horrible noise blob, but Arabic, VP S6/S7 into UTwente, presumed Rep. of Yemen Radio service via Riyadh, but with heavy ACI from 11940 CRI English this hour only by Kashgar, EAST TURKISTAN, std. denunciation, S9+15/20. LSB tuning helps but still bothering. ACI gone by 1700 but now I hear some CCI noise under 11935, not the roaring sound when strong and alone. By 1728 Qur`an in clear, S9+15/20; 1820 still clear, S9+10/20 (Glenn Hauser, OK, WOR)

** SAUDI ARABIA. ```Hi Glenn - Rob Wagner (Australia) has also been doing considerable monitoring of 11935. Ron Howard https://medxr.blogspot.com/2024/06/11935-khz-strange-goings-on.html

Today's update of his monitoring:

``UPDATE (June 4, 2024 @0409 UTC) --- Today, Radio San'na {sic} signed on again at 04:00:30 UTC with a strong signal plus buzzing. The buzzing started at EXACTLY the same time as the station. The chances of jamming starting at exactly the same time as the transmission are extremely low. This seems to indicate to me that this is, indeed, an intermittent transmitter fault. 73 and wishing you good, buzz-free DX!! Rob Wagner VK3BVW`` (via Glenn Hauser, WOR)

** SCOTLAND [non]. 5850, UT Friday May 31 at 0200-0300, `Encore` on WRMI, first scheduled airing of fortnightly run; usually I catch a later repeat on UT Sunday or Monday; and check the playlists. But content of this new(?) program does not match either playlist nor his publicity. I notify Brice Avery, who says there was a mixup but he won`t be able to correct it until Tuesday. Anyway, I told him I very much appreciate his mixture of familiar and unfamiliar classical music! (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Fri May 31 at 2159, just before token English from SNR, S9+30/40 direct and the other three detectable, 15390 & 15520 not yet // but 17715 is. Back at 2202 after WRMI and Turkey have faded out in R3 blackout, 17855 still audible but diminished to only S9+10/20. Missed billboard about topix, but today no Amy, only Marylin Quintana. 2207 is about the dangers of smoking, referring to https://semanasinhumo.es/ which concludes today. 2210 interview about a museum with a statue of Constantine. 2226 report by Lebanon

correspondent, which I am now hearing on 15389.988, S8/S9 into UTwente (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Monday June 3 at 2200, token English from SNR, VG direct, and good enough on 15520 while 15390 & 17715 are JBA but confirmable. Again today, only Marilyn Quintana, guess Amy Egan vacationing? Nothing like Turkey but MQ does have an accent unlike Amy. Top news is PM Sánchez facing no-confidence vote. Interview checked at 2210, something about getting medical/health advice via audiovisual means. The podcast is titled: ``Innovative entrepreneurship: AI at the service of society`` (Glenn Hauser, OK, WOR)

** SPAIN. 17855, Wed June 5 at 2200, token English from SNR, S9+20/30 direct, also 15520, S9/+10; weaker but audible on 17715 and detectable on 15390. Both Amy & Marilyn hostessing, preview about Madrid Book Fair; 2202 right into that skipping any news (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, May 31 at 2156, VOT IS & IDs, so not off the air and not on wrong frequency this time; S9+10/20 direct, but 2202 recheck only a JBA carrier! This correlates perfectly with a WWV notice of R3 level blackout: see that under USA/WOR report. By 2224 I try UTwente when measured, as it`s S9+50 over one? hop, starting `Turkish Folk Tales` about two sultans (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, June 1 at 2203, VOT English not off the air, S9+30/40 VG into UTwente, with Olds; 2210 multi-lingual ID filler reel; 2212 `The Energy Agenda`, 2219 songs past 2240 (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, June 1 at 2240 continued from previous report, via UTwente, VOT just music until 2254, dredging up the Ms Badax s/off mentioning only the 1230 on 17620, IS once and off 2255* (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, Sun June 2 at 2220, VOT English not off the air, VG into UTwente with TRTWorld promo, and `Weekly Commentary` about Rafah, etc., written by John somebody but read by Ms Badax, mentions ``Israel commits genocide``. 2226 ``with-you-every-hour`` promo. 2227 `The Letterbox Programmme`, mostly QSL requests from: New Delhi regular, China-no name?, David Ansell? England, Japan, China, India. 2242 time`s up so must play mandatory never identified song; THEN 2246 L`Box outro; ``always-by-your-side`` promo, song. 2251 headlines by Ms Badax. 2253 her s/off as if the 1230 on 17620. 2254 IS. 2256 restart IS with German IDs, to 2259*. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, June 3 at 2200, JBA carrier direct, but a few minutes later nothing at all from VOT English. Nor on accidental alternates 11795, 9875. Ditto by 2220 check of UTwente. Something`s erroneous at Emirler. Nothing else listed on 11785 around this hour (Glenn Hauser, OK, WOR)

** TURKEY. 11785.009, June 4 at 2157, VOT IS & IDs in English, not off the air today, S9+10/20 direct but vs S8/S9 high local line noise. 2200 accurate timesignal; s/on mentions `Review of the Turkish Press` after news [sic] but no specific segments after that besides music. 2233 I`ve switched to UTwente, S9+40/50 as Ms Badax is reading `Weekly Commentary` as shortly outroed at 2236, music. 2240 `Turkey`s Geomarked [sic] Products` about some cream from processing milk, no further into cheese, it seems. 2242 music. 2247 `ABYS`. 2248 music. 2253 s/off with no mention of SW. 2253.5 IS. 2256 restart IS with German IDs to 2257*. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** TURKEY. 11785.010, June 5 at 2203, VOT English not off the air, S9/+10 direct but not enough vs local line noise level. 2228 check into UTwente when measured, S9+45/50, `The Middle East and Turkey`, mentioning Iraq; 2234 music; 2238 `Sports Panorama`; 2245 music; 2253 s/off ignoring SW; 2254 six notes of IS before chopped off, no finesse. Something`s always erroneous at Emirler (Glenn Hauser, OK, WOR)

** U S A. Finally some 10m beacons, including regular K6FRC on 28300 CW, June 5 at 2159: 28244 CW, EEEEEEE DE WA6APQ/B CA. WGB list: ``28244 WA6APQ/BCN - Long Beach CA USA DM03vu - #0 (06 Feb 2024) Note: WA6APQ/BCN EEE - Pwr 30w``
QRZ.com: ``WA6APQ USA flag USA, DEWEY MYERS, 2903 Monogram Ave, LONG BEACH, CA 90815. The WA6APQ BEACON on 28.2440 MHz is located on a 330 foot hill (Signal Hill) in Long Beach, California. Radio is a Motorola Mitrek consolette base station, 30 watts, antenna is Antron 99 vertical. Code speed is approx. 10 wpm and operates 24/7. Since 1993. If you would like a beacon QSL card, send SASE or SAE with $1.00 (no IRC's) or email for a printable QSL card. Include the standard (RST) signal report, UTC time and date. Audio/Video and Youtube recordings are welcome. Thank you for looking.``

28232+, June 5 at 2206, VVV DE W7SWL/B: WGB list: ``28232.3 W7SWL/B - Tucson AZ USA DM42ng - #0 (20 Feb 2024) Note: VVV de W7SWL/B`` So a ham axually own an ``SWL`` call? QRZ.com: ``W7SWL USA flag USA, ROBERT J COOMLER, 7322 E Calle Los Arboles, Tucson, AZ 85750. The 10M beacon is back in operation after a long rest. 5 watts into a 1/4 wave vertical. 28.2323 mHz. Any reports (email or mail) would be appreciated. Thanks! Would be pleased to exchange cards for QSOs or beacon reception. I'm old school, no return postage is necessary.``

28224.6, June 5 at 2208, K5GJR/B: WGB list: ``28224.5 K5GJR/B - Orange Grove TX USA EL17hr - #0 (20 Feb 2024) Note: ID + grid - A-99 vertical pwr 2.5w`` -- that`s west of Corpus Christi. QRZ.com: ``K5GJR USA flag USA, Randy L Bates, 505 County Rd 231, Orange Grove, TX 78372. Hello All, I have a 10mtr beacon that runs 24/7 at 28.224.5, consisting of a Radio Shack HTX100, putting out 2.5 watts, using a Pico keyer kit I assembled, into a Antron A-99 vertical antenna at 40'. 73s Randy k5gjr`` (Glenn Hauser, OK, WOR)

** U S A [non]. 17675, June 1 at 1533 direct, S2/S5 sounds like

Portuguese play-by-play game coverage. Suspect it`s the BAL championship from Rwanda via VOA SAO TOME; previous games were on 17655, and 15580 Botswana, but which is not heard now. 17675 gone by next check 1742 at UTwente. Certainly not NZ at that hour. At 1744, 17655 is on into UTwente, VG S9+15/20 with Luso Port discussion of Angolan economy; at 17-18 regular site is VATICAN, violating Separation Of Church And State (Glenn Hauser, OK, WOR)

** U S A [and non]. ``Glenn, Please notice new times of WOR on IRRS-Shortwave & MediumWave via NEXUS-International Broadcasting Association, effective May 31, 2024:

** U S A [and non]. WORLD OF RADIO 2245 monitoring: confirmed Friday May 31 at 2051 the 2030 on IRRS SW via AM Italia, 1322.995 kHz, S9+5 into UTwente. Also on WRMI webcast only.

NOT confirmed Friday May 31 at 2200 on WRMI 9955, which had been the first airing on SW anywhere: monitoring direct at 2158, S9+10/20 on the meter but too undermodulated? to tell what`s on it, cannot even recognize theme at 2200. By 2202 signal is gone: correlates perfectly with WWV report of an R3 level blackout:

Potential Impacts: Area of impact consists of large portions of the sunlit side of Earth, strongest at the sub-solar point. Radio - Wide area blackout of HF (high frequency) radio communication for about an hour.``

At 2228 I get to 9955 just in time via Maryland SDR, to hear choral music, NOT WOR, so looks like we have been canceled again! This makes the very much appreciated WTWW airing, UT Sat 0400 on VG 5085, now the first on SW from USA. First anywhere should be Fri 2230 on SWR Germany 3975, which I missed checking this week. Since I record on Thursday afternoon including some possibly perishable info, the sooner WOR can get on the air somewhere, the better. {see below: Jeff says still on}

** U S A [and non]. WORLD OF RADIO 2245 monitoring: despite my hearing music on 9955 at 2228 Friday May 31, Jeff White replies, ``Glenn: WOR is still scheduled for 6 pm ET Friday on 9955, and our electronic log from yesterday shows it played at that time. Jeff``

And next: ``Hi Glenn, WOR 2244 (not 2245) heard via SWR Germany on Friday 31 May at 2230 UT on 3975 kHz. Best wishes, Alan Roe, Teddington, UK``

Not confirmed UT Saturday June 1 at 1453 the 1430 on SW Gold Radio, Germany, as no signal from 6160 into UTwente; nor on 3975. But see GERMANY: 6150

Confirmed Saturday June 1 at 1600 on WRN North America webcast.

Also confirmed Saturday June 1 at 1733 the 1730 on SW Gold Radio, Germany, into UTwente, 6160.001 S9/+10 and 4 or 5 words behind on 3975.002, S9/+5.

``WOR 2245 confirmed via SWR Germany via my local Kiwi SDR. Saturday 1st June 17:30:20 UT on 6160 kHz. S9+5dB. However some sideband China QRM // on 3975 kHz with S9 and no sideband QRM. Lesley Illingworth reporting from Bremerhaven.``

Also confirmed Saturday June 1 starting at 1946.5 the 1930v on WA0RCR, 1860 AM, MO, steady S9+15 groundwave into nearby SDR with no storm noise.

Also confirmed Saturday June 1 at 2000 on WRN Europe webcast. Next:

** U S A [and non]. WORLD OF RADIO 2245 monitoring: confirmed UT Saturday June 1 at 0400 on WTWW 5085, S9+15/25 into Maryland SDR - overlooked including this one in my previous report.

Confirmed Saturday June 1 at 2300 on WTWW 9474.980; VG direct and checking various remotes averaging -20 Hz offset. KFS/SE S9+15; UTwente S8/S9; LU4AA Argentina S7/S8; Pardinho Brasil S9/+10; Brasília S6/S8; Iceland S6/S8; Querétaro S7/S9; Alaska: no signals. In South America we are squeezed between ACI from 9470 & 9480.

Also confirmed on stream only of IRRS/NEXUS/IBA/IPAR still starting at 2333 after 3 minutes of Feature Story News; and fading me out, twice by 2400 with 2 minutes remaining, for a minute of harpsichord fill music, and then stream crashed so unknown what next tho scheduled more news and then generic non-info. Surely they could let WOR run its full 29 minutes one way or another.

Also confirmed UT Sunday June 2 at 0014 the 0000 on WRMI 9955, S7/S9 and noisy into Bonaire; S9/+12 into Maryland SDR even tho it`s aimed SSE.

Also confirmed UT Sunday June 2 at 0343 on WA0RCR, 1860 AM, MO, JBA in HSNL direct but S9+10/20 vs HSNL into nearby SDR, about 8 minutes into so started about 0335, the 0315v. Next:

2130 UT Sunday SW Radio, Germany 3975 & 6160;
2330 UT Sunday WRMI 7570 to NW [NEW];

** U S A [and non]. WORLD OF RADIO 2245 monitoring: Also confirmed Sunday June 2 from 1903, new time on IRRS via AM Italia, 1323 kHz, S9+15/20 into nearby Noale SDR. Following 3-minute Verdi theme at 1900. And now THIS WOR is chopped short by 2 minutes so VOA news can air at 1930! Then at 1935, 16 Gwendolyn Street. A 29-minute program is never going to fit into a 27-minute slot! Without a speedup? Surely a way could be arranged to carry the whole program.

Also confirmed Sunday June 2 at 2000 on WRMI webcast only and WRN Europe stream.

Also confirmed Sunday June 2 at 2130 on Shortwave Gold/Radio, Germany, into UTwente, S9+20/25 on 6160.002, S9+15/20 on 3975.003.

Missed checking the new Sunday 2330 June 2 on WRMI 7570; anyone hear it?

Also confirmed UT Monday June 3 at 0030 on WRMI 7780, S9/+10 into Maryland SDR.

Confirmed UT Monday June 3 at 0300 on Area 51 via WBCQ 6160 -70 Hz = 6159.930, S8/9+5 into Maryland SDR. At least once during program and shortly after 0329 finish, overriding noise blasts. Not sure whether external QRM or something internal.

Confirmed Monday June 3 at 1737 so would have started about 1730 UT on SatZentrale webcast via
https://www.satzentrale.de/technikradio/sendeplan.shtml
On the sked of this substation, WOR not mentioned but part of
``MONTAG 19 Uhr [MESZ]: Technikradio - Kurzwellenecke (deutsch/englisch)``
WOR however is shown on this page also with Play link:
https://www.satzentrale.de/technikradio/programm.shtml
And no other time during the week but this is a 2-hour block so WOR might appear at 1700, 1800 or 1830 UT? Next:

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW [irregular?];
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast; jammed?];
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
0130 UT Thursday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 6160.

** U S A [and non]. WORLD OF RADIO 2245 monitoring: confirmed Monday June 3 at 1930 on SW Gold Radio, Germany, into UTwente: 3975.003 S9+7 and 6160.001, S9/+10.

Missed checking UT Tuesday June 4 at 0330 on WRMI 7780; anyone hear it? Sked shows Wavescan but WOR has been showing usually.

Confirmed Tuesday June 4 at 1300 on WRMI 9955, VP S8/S9 direct. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
0130 UT Thursday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 6160.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2245 monitoring: confirmed Wednesday June 5 at 1930 on SW Gold Radio, Germany, into UTwente: 6160.001 S9+10 and 3975.004 S9+5/10.

Also confirmed Wednesday June 5 at 2100 on WBCQ, 7490 -73 Hz = 7489.927, S7/S9 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S;
0130 UT Thursday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 6160.

** U S A. 9455, June 1 at 0657, WRMI in Vietnamese, one of the multi-languages of Supreme Master TV, S9+5/15 direct; 0658 back into English and // 9395. Maybe on TV there be translation captions? Not helpful on radio (Glenn Hauser, OK, WOR)

** U S A. Pre `AAAWWW` check of WBCQs, May 31 at 2342 into NH SDR: 3265 & 5130 NOT on air; 6160 -70 Hz = 6159.930 TOMBS; 7490 -70 Hz = 7489.930 FKB; 9330.000 WLCR S7/S9. Everyone hears the ``one-minute`` warning to FKB, except him, as he keeps preaching and has to be faded out by 0000 UT June 1, when ``WTO`` theme starts, before a late canned ID intervenes on 7490-. Unlike usually, AW never interjects a word into theme; it plays complete unmarred. Then as usual he`s fumbling with the equipment, instead of getting all set before the broadcast. Angela`s mike check is OK. Having a problem getting 6160 to stay on as ``quadricasting`` tonight on ``3265, 5130, 6160, 7490``. NO, I recheck and 6160 is on with something else and the other two are still OFF. Says last week [only] was a repeat, and A&A have just returned from Florida ``a week ago`` up the I-95 corridor, with complaints about speed limits and masks. Soon at 0009 takes a phone call from Adam in

Indiana, by which time it`s very clear this is an oldie from early in the COVID pandemic! No disclaimer aired before it this week. I was wondering why they were not outraged about *rump being convicted yesterday. This makes the SIXTH RERUN IN A ROW, as I have checked every week, and the last new one was APRIL 20! I am thus wondering if A and/or A be ill or something? Any explicatory twits lately? (Glenn Hauser, OK, WOR)

** U S A. 9330, June 3 at 0622, World`s Last Chance Radio, nonsense facilitated by WBCQ, not in usual exaggerated British accent, but American, pseudo-scientific wacko explanation of how the Earth has to be flat, by shooting lasers across the oceans, etc. People are being ``indoctrinated with globalism``. Really laughable, but how many credulous listeners may he convince? Leading them into a life of delusions (Glenn Hauser, OK, WOR)

** U S A. 15150, Monday June 3 at 0615, S9+20 of dead air, obviously WMLK which attempts to broadcast toward Europe overnight, except on UT Sabbathdays; much stronger here than usual, ironically, and still dead at 0704, tsk2. I guess no one be awake at Bethel and monitoring own output. What would DEJOM say? Wolfgang Bueschel also reports, via remotes:

``15150even USA  WMLK from Bethel PA state, S=9+20dB strong signal, but only carrier seen on screen. No audio program content at this hour, 0425 UT on June 3. Slight 120 Hertz buzz tone audio noted and seen on screen too`` (Glenn Hauser, OK, WOR)

** U S A. 7505, June 5 at 0629, WRNO with gospel huxter in English, S9+25/35. In nightly bandscans around this hour, first time WRNO heard in months. Has run late or even all-night in the past, partly in Chinese. What next? (Glenn Hauser, OK, WOR)

** U S A [non]. 3955, Sat June 1 at 1900-1940+, Texas Radio Shortwave via Channel 292, GERMANY, now monthly broadcast, S9/+10 into UTwente but considerable noise and fading, synth? YL voice hostess with ``the music of Texas blues legends Hugh D. Ledbetter and Lemon Jefferson. We'll be broadcasting on Saturday at 1900 UTC on 3995 {sic} kHz and Sunday at 1200 UTC on 9670 kHz`` (Glenn Hauser, OK, WOR)

** U S A. Re: 1160 RCC in Spanish, another earlier reply, via ABDX: ``How about KCTO? Last I heard they were running Spanish Catholic (Radio Maria network). They have been reported running day power at night in the past. 73 Tim Hall`` (via Glenn Hauser, WOR)

** VANUATU. 7260, May 31 at 0636, music at S6/S7 so R. Vanuatu is back with modulation as well as carrier. Ron Howard had notified the engineer that last night it was on but with dead air, apparently news to him! (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1141.00 kHz, May 31 at 0616 UT, het against 1140.00 stations, very close to 1 kHz tone. Could not be a TA or TP where 1143 is nominal. As previously reported by: Terry L Krueger from:

``Boggy, Florida Occidental, IC-R75, NRD-535, ICF-7600GR, Tecsun PL-360, active loop, random fence-stapled wire, misc. junk --- 1141 UNIDENTIFIED 0716 5/16/24 Fairly strong and solid with no audio, as reported by others. Points roughly 330/150-ish degrees, which should eliminate Cuba if accurate enough. Anyone in Mexico able to check?``

Many more logs of this unID::

(Glenn Hauser, OK, WOR)

UNIDENTIFIED. 6925- AM, June 2 at 0148, JBA carrier slightly on the minus side. One got an RCW ID, as in Radio Compañía Worldwide, Chile?, others unID maybe North American:

UNIDENTIFIED. 12073-12095 approx., June 2 at 0255, OTH radar clickery peaking S9/+10 and just barely missing BBC OMAN in Dari 12095 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 28262 CW, June 3 at 2207, JBA beacon with long dash and VVV but can`t copy the call thru several repetitions. Another one on 28282. Only other 10m sig is Brazuguese on 28410 USB. Long time since 10m has been replete with beacons, despite Es MUFs allegedly way above it. Per WGB beacon list, 28262 likely VK2RSY Sydney NSW which I had logged recently including a 30-second carrier = dash (Glenn Hauser, OK, WOR)

WORLD OF RADIO HITLIST UPDATE

Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) ~Aggregator - World Radio Network: Updated links to point to A-24 schedules. (Thanks to Alexander Miatlikov in WOR iog mail list)

2) ~Aggregator - radioben: Site appears to be no longer maintained or updated. However, archived podcasts remain, so entry will be kept for the present.

3) Australia - Unique R: Deleted entry as website is being discontinued (Thanks to Tim Gaynor, Unique R, in WORiog mail list)

4) Germany - HCJB Deutsche: Website now moved to a new host, all links updated.

5) Scotland - Weekend Music Radio Scotland: New entry added to list. (Thanks to Lesley Illingworth in WOR iog mail list)

The next update is scheduled for late June.
Best wishes and 73, Alan Roe
